Will Be Blacklisted

Pass Retailers To Combat The Dead-Beater By New Methods

Steps are being taken to establish a branch of the Retail Merchants' Association in the Crows' Nest Pass, which will prove a great benefit to the merchants interested in the credit system as well as an exposition of the dead-beater who has his mind made up to stick everyone he can, and in every other town he can. Such characters will have their names published in a "black book" for reference of members of the association all over the province, and in this way the work of the dead-beater will be very much eliminated.

The retail merchants of all the provinces under the credit system have lost some of money which aggregate into a surprising total by the ravages of the unscrupulous debtor, otherwise known as the "dead-beat." These people have the habit of dealing in one town until their credit is exhausted entirely, then they quietly pack up their goods and sneak out to some other part, to repeat the same operations. We have known instances of these people merely moving from one town to another, or from one town to a city a short distance away, and it is this fact which makes it necessary for some strong organization to combat this practice.

In order that the retail merchants of the province might be kept closely in touch with all the new ideas in connection with the retail trade, and also with the progress that is being made by the association towards better conditions for the retailer, it is deemed wise to publish a monthly magazine. The first issue of this magazine went forward on August 1st. It will be the duty of this magazine to expose wherever necessary any fraud which is working a hardship upon the retail merchant of the province, and the publication of a "black-list" of unscrupulous debtors.

Brief Mention

Lethbridge Dry Farming Congress opens on October 21st.

Few, if any medicines have met with Colic, Cholera and Diarrhoea Remedy. The remarkable cures of colic and diarrhoea which it has effected in almost every neighborhood have given it a wide reputation. For sale by all dealers.

Eleven cats were recently put in the pound at Blairmore. They escaped and now the city is looking for a better pound.—Greenwood Lodge.

Running up and down stairs, sweeping and bedding over making beds will not make a woman healthy or beautiful. She must get out doors, walk a mile or two every day and take Chamberlain's Tablets to improve her digestion and regulate her bowels. For sale by all dealers.

Mrs. "Jack" Johnson, wife of the "big smoke," suicided at Chicago last week. Mrs. J. was a white woman and daughter of Mrs. David Terry, of Graceland.

The implicit confidence that many people have in Chamberlain's Colic, Cholera and Diarrhoea Remedy is founded on their experience in the use of that remedy and their knowledge of the many remarkable cures of colic, diarrhoea and dysentery that it has effected. For sale by all dealers.

Killed in Coleman Mine
An accident occurred in the McMillen Coal Co.'s mine at Coleman on Tuesday at noon, which resulted in the death of a French miner named Emile Genjanbre. Genjanbre was coming off shift when a pile of rock tumbled on him causing a dislocation of the spinal column. Genjanbre was about thirty-four years of age and leaves a widow at Coleman. Funeral takes place this afternoon under the auspices of the I.O.O.F. of which he was a devout member, and assisted by the U.M.W.C. of A.

An inquest was held on Wednesday, the jury finding that death was from purely accidental causes and no blame could be attached to anyone.

Miner Found Dead At Police Flats

A miner named Steve Kampen was found dead in the mine at Police Flats on Monday by some fellow miners. Kampen should have come off shift at 4 o'clock, but failed to put in an appearance. When found his body was lying face upwards, and the circumstances surrounding his death are of a very peculiar character. Corner Pinkney was summoned from Blairmore and an inquest held Tuesday afternoon, but inquest had to be adjourned till the 30th inst. to give time to consider the case and gather more evidence.

Kampen was 28 years of age and leaves a widow residing at Parkburg.

Agreement is Reached

An agreement has been arrived at between the operators and the C.P.R. to the effect that the company agrees to a 12 per cent increase in wages, a ten-hour day, time and a quarter overtime, Sundays at a pro rata of 26 days a month, 5 per cent increase for dispatchers who will be paid extra for Sundays or else allowed one day a week off, linemen will receive 10 p. c. increase and expenses when away from home.

As Others See Stampedes

The Stampede has now become history. What if the Indians have wasted two weeks in the city, also a month before preparing for it and will waste a month getting over it, when they should have been at the harvesting of their crops at home and preparing for the long winter. Think of the education (God save the mark?) and the good time they have had not to speak of the civilizing influence of the war paint and the utilitarian value of the goods they have purchased from the paleface brother. What if the Great Spectacle has attracted to Calgary an army of thugs and crooks from the charnel-house of a continent!

Only one policeman in the discharge of duty, has fallen a victim at the hands of some of the outlaws that are usually attracted by such affairs. Forget the one unfortunate cowboy, who has lost his life and left a widow and children to the mercy of a cold world. Forget the unpleasant (but doubtless enabling) features of the steer "bulldozing" spectacle. The merchant has got rid of some of his showmen goods, the restaurateurs attained independency of means through "hot-dog" sales. Did your bed cost you five dollars for the night, have you not seen the greatest Stampede ever? Calgary's Great Fair has advertised Calgary. And things like this, you know, must be.

At every famous victory.

New School Rooms

Blairmore's School Teachers Are Given Room To Kick.

The new addition to the Blairmore public school is nearing completion, and the building now has a very attractive and commanding appearance. The new addition is built upon a whole basement walled with stone and having a concrete floor. This basement is intended for a playroom for the girl pupils when weather conditions are such as to make out-door play unpleasant.

The first floor contains one large room, capable of accommodating some sixty pupils, and equipped with about forty feet of slate black-board. A well slanted stairway leads from the hallway to the second flat, where another large room is added and equipped in a similar manner.

The desks for the two new rooms were ordered last week and as soon as they arrive these rooms will be opened up for teaching.

The school now has six rooms and six teachers, as compared with four rooms and four teachers a year ago. The attendance at present is about 220, while others are being added to the roll every week.

Improving The Service

Messrs. McKay and Moore, of the Alberta Government Telephone Department, Edmonton, were in town this week, making arrangements for the issue of a separate telephone directory for Blairmore. Blairmore now has the distinction of being the third town in Southern Alberta to be favored with a separate local directory, only Lethbridge and Medicine Hat preceding.

The new directory will include some three hundred local subscribers and covers a district between Burnis and Crows' Nest.

For some time past the public have been agitating for a complete revision of the local telephone list, and it is gratifying to note that the department is realizing the importance of the district and the urgent needs for improvements.

The staff at the central telephone exchange at Blairmore has just been augmented by the addition of several "hello girls," and every effort is being put forth to ensure a good all-round service in the future.

A new key-board will arrive this week from Edmonton and will be installed at once.

The telephone department are also taking steps to give us a better long-distance service, and very soon we shall enjoy as good service here as in any other part of the province.

The new directory will be out in about ten days.

Anniversary Concert

At the Baptist concert last night, the following well known vocalists took part: Mrs. J. H. Lee, Blairmore; Mrs. C. W. Tatum, Pincher Creek; A. W. McMurdo, Cowley; all of whom were well received. Miss Williams rendered several pleasing pianoforte selections, as did also Mrs. E. Thorne, the accompanist. We regret that space will not permit us to give an account of this concert in detail.

Coleman Notes

A meeting of the Crows' Nest Pass Liquor Association was held here on Tuesday.

The ball given by the ReReks on Tuesday night was one of the most successful social events in Coleman's history.

Miss J. Hume has resigned from the teaching staff. The vacancy has been filled by Miss Cameron, from Springfield, Nova Scotia.

Geo. A. Clair and bride returned to town last week from their honeymoon trip. "George" surprised everybody by quitting the ranks of Bachelor.

A special meeting of the Macleod Freebryery will be held at St. Andrew's church, Lethbridge, on Tuesday next, Sept. 24th, at 4 p.m., to consider a call from that church to Rev. T. M. Murray, of Coleman.

Our town was favored on Monday last by a visit from Sir Thomas Shaughnessy, president of the C.P.R. Sir Thomas and party spent a couple of hours taking in the sights of the town and returned east at night.

Rev. J. G. G. Bompass, who had been relieving Rev. T. M. Murray as pastor of the Institutional church for the past few months, left on Sunday night last for Winnipeg, where he will reenter upon his studies at Men's College.

By ARTHUR LANGLEY

A vehicle was whe

Being an imaginative man, he permitted himself to brood over the situation. Instead of a romance he had caught a tartar. He began to wonder if the money was in the bottom of the sea. Indeed, he thought of putting there. The bills were a burden to him. He didn't like to put them in the bank for the deposit of such a sum might excite a suspicion that would lead to the fact getting out that he had a large sum in his possession which did not belong to him. That discovery might

Which It Was Solved,

While the two men pondered a call at the outer office with a large portfolio under his arm. Five years before the reading of Mooreau's "Journal" had taken place, and the man who had taken it was the same man who described. In all seasons and all kinds of weather he had wandered through the woods and over the fields with his camera. Passionately fond of nature, he was no less devoted to it. To him photography was a pastime. It was not his profession. For he had no other means of making a living with no thought of pecuniary gain had accomplished the very feat which the two business men had thought difficult, and by a curious coincidence he appeared at the office to exhibit the result of his work at the present moment when its desirability was being discussed.

Pollards Juvenile Opera Coming to Blairmore

The "Victoria Colonist" has the following to say of the Pollards Juvenile Opera Company, who are booked to appear at the Blairmore Opera house on Friday, October 4th, in "The Missouri Girl":

"A crowded house in the Victoria theatre last evening at once welcomed the Pollard Juvenile Opera Company back to the city and opened the season at the theatre. It is true that there has been a one-night engagement already which is to the credit of this season, but for the opening of regular run of attractions for 1912-1913 it should be gratifying to Manager Denham that he was able to book the Pollard Juvenile, now on their fifth tour of the world.

It is not the original group of youngsters that are beginning a round of the Canadian cities by playing in the capital of the province nearest their home, but while the members of earlier companies are correspondingly more clever, and it is certain that they are, on last evening's showing, better trained vocally and histrionically. Those of the former boys and girls, who have come back to this continent on this tour come with an assured career in the musical comedy world. Every one is tried and trained and they have in addition to all the experience they have gained the freshness of youth which has always marked the Pollards.

In the company there are several new faces, and these the Miss Jessie Hill, and Mr. Willie Bevan, while among the youngsters of an earlier day—but not so much earlier are Miss Nellie McNamara, Miss Eva Pollard, Miss Leslie Donaghey and Mr. Willie Pollard.

The bill last evening was "Sergeant Brue," a really good musical comedy in that it was both musical and was genuinely comical in its situations. The principals in this and the chorus as well all entered into the spirit of the thing, and gave an interpretation of the story of the metropolitan policeman who rose to be an inspector with an enthusiasm and zest which more completely hid the many shortcomings of the plot than if it had been given by a cast of adults. The chorus girls were not of the kind that are always seen; but they really sang and acted as if they had an interest in what they were doing to enhance the success of the opera and the pleasure of the audience.

"Sergeant Brue" is a bright com-

edy, which makes the slight demand on the attention as far as plot is concerned, but the incidental comedy in which catchy music holds the audience which is out to be amused. All the principals in it are well cast. The humor in it is accentuated—in fact, it is created to a great extent—by Teddy McNamara, in the title role, Willie Bevan and Miss Donaghey. Without them the comedy would not be a comedy, no matter if the singing were as good as it undoubtedly is. Teddy McNamara is no stranger to Victoria playgoers, as was made evident as soon as he made his first appearance. He is inimitable in his comedy work. Willie Bevan is a splendid comedian and every word and action caused a roar of laughter.

Miss Hill and Miss Williams are worthy additions to the strength of the company, and Miss McNamara has developed a beautiful and well-modulated contralto voice. Miss Williams is a fine comedienne, and both her songs were received with deserved applause. Miss Hill and Miss McNamara in their duet, "Daddy," Miss Pollard in her solos and Miss McNamara in her song, "Rose of Honolulu," were very successful and had to repeat.

The chorus is well trained in voice and as dancers, and in the second act presented a dainty ballet. The setting of the opera was all that could be desired and the whole performance was entirely acceptable to the large house that had been attracted by the return of the Pollard "kiddies." This evening they will be seen in "The Toy Maker," in which they have made a hit elsewhere.

Agreement Signed

Ottawa, Sept. 12.—The Alberta government has signed the agreement with the federal authorities by which it secures the subsidy voted last season under the act passed to encourage agriculture. Every province now except British Columbia has reached an agreement as to the way in which the money is to be spent. The British Columbia agreement will be signed shortly. Half a million dollars was voted under the act, and it was divided among the provinces according to population. All the provinces, irrespective of the policies of their government, have co-operated with the minister of agriculture in endeavoring to use the money to the best possible advantage and the scheme promises to work admirably. The Alberta subsidy amounts to \$26,094.93.

Liquor License Ordinance

APPLICATION FOR TRANSFER OF LIQUOR LICENSE

Application has been made by the Blairmore Liquor Company, Limited, for a Wholesale Liquor License, under the provisions of the act on Lot No. 2 in Block No. 4 Town of Blairmore, Alberta, Plan No. 20211.

This application will be considered by the Board of License Commissioners at a meeting to be held in the I. O. O. F. Hall, Lethbridge, Alberta, on Friday, the 11th day of October, 1912, at 10 o'clock A.M.

Dated at Edmonton this 11th day of September, 1912.

A RARE OPPORTUNITY FOR LIVE INVESTORS Lake City

Is the name of the Western Terminal Point of the proposed
Crow's Nest Pass Electric Railway and is already tapped by
the Pass line of the C. P. R., while the G. N. R. has al-
ready approached to within a few score of miles and must
eventually pass through this admirably located town.

Lake City

Is located by the shore of Crow's Nest Lake, only a few
miles east of the provincial boundary between Alberta and
British Columbia, and just north of the international line.
In reality, it is at the top of Canada where the majestic
Rockies tower in serene magnificence over great chasms and
numerous floods, reflecting their presence on the waters of
this beautiful lake. Here also are afforded the very best
tasks for the daring mountain climber and for huntsman
who desires to outlive the quiet ways of the Rocky Moun-
tain goat, sheep, deer or elk, which are the monarchy thereon.
In close proximity are numerous timber, mineral and fuel
resources, development of which is now in its initial stages.
These resources include gold quartz, coal, iron and pulp wood.
Crow's Nest Lake has long been looked upon with promise
as an admirable location for health and tourist resorts, and
but now this promise is being realized. Plans for hotels, etc.
are being arranged, as well as boat houses, and the most
modern pleasure yaws will soon glide over the surface of
this beautiful lake.

But a few weeks ago lots were placed on the market, and
the agents have had their hands full attending to purchas-
ers. Prices run from \$150 up. For further particulars
apply to the agents:

NOW THE MONOCLE.

The Medish Summer Girl Wears an Eyeglass.

"SILK COAT OVER HOT FROCK." Fetching summer out of door costumes are accompanied by monocles, which hang on long jeweled chains or ribbons with jeweled slides. This costume shows a silk coat worn over a hot frock, and the monocle gives a dash of knowing smartness echoed by high heeled satin boots with glass buttons.

USEFUL SUGGESTIONS.

Ways to Overcome Difficulties Encountered by Housekeepers.

Roasting in a gas stove causes meat to dry, as gas causes a very dry heat. The simplest way to prevent this is to place a common jam pot half filled with water in a corner at the bottom of the oven, and when the water heats the steam will keep the air fairly moist, and it will be found when the meat is done that it will be quite juicy.

A woman who has tried it declares the best way to mend china is to apply a little carborundum carefully with a camel's hair brush to the edge of the broken china, the parts being neatly joined together. The fracture will, when thoroughly dry, be hardly perceptible, and the china will stand fire and water.

Old kid gloves are excellent for padding when making them. With such padding the hot handles will not scorch the hands.

When ironing circular catenapieces or tablecloths see that the iron moves with the straight grain of the cloth. In this way only it is possible to preserve the circular edge in its true line.

"See you go to visit the sick do not forget that a good laugh is one of the best tonics and a bit of humorous gossip or playful saying is better than any drug. Make the invalid smile if you cannot start up a laugh, but make your visit short—Remember that too much of a good thing is as bad as too little."

Mr. Henpeck's Version.

Mr. Henpeck—"Is your beef tender today?"

Butcher—"Yes, sir; it's as tender as a woman's heart."

Mr. Henpeck—"Then I'll take a pound of sausage."

Mr. Henpeck—"Then I'll take a pound of sausage."

Mr. Henpeck—"Then I'll take a pound of sausage."

Mr. Henpeck—"Then I'll take a pound of sausage."

Mr. Henpeck—"Then I'll take a pound of sausage."

Mr. Henpeck—"Then I'll take a pound of sausage."

Mr. Henpeck—"Then I'll take a pound of sausage."

Mr. Henpeck—"Then I'll take a pound of sausage."

Mr. Henpeck—"Then I'll take a pound of sausage."

Mr. Henpeck—"Then I'll take a pound of sausage."

Mr. Henpeck—"Then I'll take a pound of sausage."

Mr. Henpeck—"Then I'll take a pound of sausage."

Mr. Henpeck—"Then I'll take a pound of sausage."

Mr. Henpeck—"Then I'll take a pound of sausage."

THE DRUMMER WAS SAVED.

Despite the Dangers of His Life Saving Rubber Suit.

ANOTHER one of the stories which Frank Jones used to tell on himself is repeated by Al Campbell, who knew the dead drummer keeper very well.

"Jones was born in Wales," said Campbell, "but when a young man lived in Bucyrus, O. They had a volunteer fire department there, and Jones was made chief."

"The citizens took an interest in us," said Jones in telling the story, "that they clung to and bought fire-fighting gear suits. Across the breast of each suit was the motto, 'We Live to Save,' and on mine above the motto was the word 'Chief' in very large letters, reaching nearly the width of the motto."

"One day," Jones went on in his usual drawl way, "the hotel caught fire. Now, when 'the hotel catches fire' in a small town it means something. This hotel was three stories high, and we believed it the largest in the known world, having seen none any larger."

"When the fire bell rang all of us ran home to get our new suits on before attempting to fight such a fire. When we reassembled, one by one, that hotel was certainly going some. In a third story window was a man who, as I learned later, traveled for a wholesale rubber house. He said something about how he would like to be saved, but we could not understand him."

"This fellow got real mad and, going back in his room, put on some kind of a rubber suit, which he blew up. Then he leaped from that awful hot building, three stories high, as high as the top of the hotel."

"Was he saved?" generally asked the bystanders for whom the story was intended.

"Finally," said Jones, "but I had to empty a six-shooter into that dazed inflated suit before I eventually got him down to earth."—Kansas City Journal.

Education a Failure.

Senator Robert L. Owen of Oklahoma, whose mother was a Cherokee Indian, stirred up some excitement down Oklahoma way in one of the first laws he ever tried.

The opposing counsel saw fit to call Owen a liar.

Owen got up and addressed himself to the court in about this language: "Inasmuch as the court has done nothing to maintain its own dignity and as I am unable to take care of myself, I shall take this affair into my own hands."

Then he turned to the lawyer across the table and remarked to him in a loud voice that he was both a liar and a blackguard and that, furthermore, he could just take that, and that, and that. Whereupon the opposing counsel fell to the floor as one who had been struck by lightning.

Of course never mind that education teaches the Cherokee boys, anyhow!—Washington Herald.

Comparisons.

After a girl has gazed at the diamond in her first engagement ring everything else looks small and insignificant to her.—Chicago Record-Herald.

Reasonable Assumption.

Mr. Henpeck—"Is your beef tender today?"

Butcher—"Yes, sir; it's as tender as a woman's heart."

Mr. Henpeck—"Then I'll take a pound of sausage."

Mr. Henpeck—"Then I'll take a pound of sausage."

Mr. Henpeck—"Then I'll take a pound of sausage."

Mr. Henpeck—"Then I'll take a pound of sausage."

Mr. Henpeck—"Then I'll take a pound of sausage."

Mr. Henpeck—"Then I'll take a pound of sausage."

Mr. Henpeck—"Then I'll take a pound of sausage."

Mr. Henpeck—"Then I'll take a pound of sausage."

Mr. Henpeck—"Then I'll take a pound of sausage."

Mr. Henpeck—"Then I'll take a pound of sausage."

Mr. Henpeck—"Then I'll take a pound of sausage."

Mr. Henpeck—"Then I'll take a pound of sausage."

Mr. Henpeck—"Then I'll take a pound of sausage."

Mr. Henpeck—"Then I'll take a pound of sausage."

Mr. Henpeck—"Then I'll take a pound of sausage."

A box of Na-Dr-CO Dyspepsia Tablets costs but 30c. at your Druggist's. National Drug and Chemical Co. of Canada, Limited.

HUDSON BAY TIMBER

Experienced Cruiser Describes Split Lake Conditions

Interesting observations with regard to the timber of the Hudson Bay Region (the southern part of the old district of Keewatin) are found in the 1911 report of the Director of Forestry, published as part of the Annual Report of the Department of the Interior for 1911.

Mr. J. T. G. Whyte, an experienced timber cruiser and fire ranger (who has since been drowned while in discharge of his duty) reports on the conditions of the forest around Split Lake on an area of about 3400 square miles.

This whole territory was originally covered with forest. The timber in Split Lake still bears Spruce, Tamarack and Jack Pine, large enough for railway ties, poles and lumber.

All the rest of the country has been burned over at least once within the past forty or fifty years, and the timber which dates from the last fire rarely exceeds three or four inches in diameter.

The shores of Split Lake have been burned over, on an average once every seven years. Fortunately, in a district where the soil is usually deep, and can always support another crop of trees. The presence of the merchantable forest in protected situations proves that the young forest now started will become sufficient to enable the country to support a pulp industry and supply a large population if it can be protected from fire.

Very little of the land traversed by Mr. Whyte is suitable for agriculture.

Mr. J. Blackford, fire ranger at Oxford House, reports similar conditions: "about 5400 square miles of territory in that region."

Settling a Dispute.

I must insist, exclaimed the pompous person, that the device is a fire plug.

And I am equally confident that it is a water plug, retorted the mild individual.

Now, my dear sir, puffed the pompous person, this device was put here by the fire department.

Very likely, it is, replied the mild individual, but it is impossible that it can be anything but a fire plug.

You are entirely wrong, declared the other. This plug was placed here to supply water. Consequently it is a water plug.

It is a fire plug, retorted the mild individual, but it is impossible that it can be anything but a fire plug.

The pompous person stopped a passing pedestrian.

Sir, he began, I desire to appeal to your intelligence. This gentleman has become involved in an argument with me. He insists that this device is a water plug, while I, with equal confidence, claim that it is a fire plug. Will you kindly settle the question for us?

Certainly, replied the pedestrian. You say this is a fire plug, and your friend declares it is a water plug. Just let me investigate.

He looked carefully at the plug and moved it with his finger.

I greatly fear you are both wrong, he finally remarked. This appears to be an iron plug.

Dressed Fowl.

The country had never looked so beautiful. It was the heyday of summer, and the setting sun gilded the rocks and glinted on the tiny pines beneath the old hatched roof.

Little Willie, who was a tow-headed boy, and had never before visited the country, occupied an old-fashioned stool beside the farmer's wife, marvelling at all around him.

By and by the good lady began to pluck a chicken that was destined for the next day's dinner, and the little boy marveled the more.

As the feathers came from the detestable bird and were dropped into a basket, Willie's attention became more and more fixed, and his mind began to work freely. Finally, he could stand it no longer, so he blurted out: "Do you take off their clothes every night, ma'am?"

The Lawyer Knew.

Wichita lawyers are not talking about the Wallace B. Baker, who was found guilty that week at the District Court of selling mortgaged property, showed his ignorance of married life.

The prosecuting attorney was trying to show that Baker was married. He asked Baker the following questions: "Did you ever send your wife any dresses?"

"Yes, I sent her four dresses."

"What kind of dresses did you send her?"

"I sent her one good dress and three common dresses."

How much did you pay for the good dress, Mr. Baker?

Oh, I sent about \$1.50.

The lawyers put Mr. Baker down then and there as an unmarriage man and a poor guesser.

Razors of Centuries Ago

We wear things and use things daily, of the origin of which we have not the slightest idea, and were we to be asked concerning their history we would be at a loss to answer.

This was illustrated when two young men well but quietly dressed, were admitting a well-known picture of a razor which was exhibited in a shop window. One of the men remarked, while looking at the picture, that he wondered how the Romans kept their faces smooth, and whether they ever shaved; and if they shaved, what were their razors like? Neither of the men could answer the question, and so they immediately consulted various authorities on the subject and found to their surprise, that razors were used for shaving in a very early part of the world's history.

The Egyptians used some kind of a razor, though the Levitical code expressly forbade the shaving of the beard. It is believed the primitive shaving instruments were made of sharpened flints. Sages in the remote islands scattered throughout the Pacific still use these pieces of flint of the same size for this purpose and pieces of shells or shark's teeth are also used.

Minard's Liniment Co., Limited.

Gentlemen,—In June, '98, I had my hand and wrist bitten and badly managed by a vicious horse. I suffered greatly for several days, and the tooth cuts refused to heal until your agent gave me a bottle of MINARD'S LINIMENT, which I began using. The effect was magical: in five hours the pain had ceased and in two weeks the wounds had completely healed and my hand and arm were as well as ever.

Yours truly,

A. E. ROY, Carriage Maker, St. Antoine, P.Q.

Threshing With Oxen.

The methods and implements of agriculture in Cyprus are still somewhat primitive. The light wooden plough, drawn by oxen, merely turns the soil a few inches. Steam ploughs and tractors, which are unknown here but every effort is being made by the Agricultural Department to induce the peasantry to adopt more scientific methods and modern implements.

Threshing commences in January, after the winter rains, and about March or April the field is cross ploughed in a diagonal line, and after the autumn rains, and the harvest takes place at the end of May. The threshing is done by hand, the grain is threshed out in a peculiar manner. It is placed on the threshing floor, and the combine is used by means of an oxen, attached to a board studded with flints, on which sits the driver and the combine is pushed by the driver and the roughness of the flints breaks the grain.

The straw, which is much broken in this process, is mixed with chaff, and used as fodder.

Ready-made Medicine.—You need no physician for ordinary ills when you have at hand a bottle of Dr. Thomas' Electric Oil. For coughs, colds, sore throat, bronchial troubles, it is invaluable for scalds, burns, bruises, sprains, it is unsurpassed, while for rheumatism, neuralgia, and all the like it is an unquestionable healer. It needs no testimonial other than the use, and that will satisfy anyone as to its effectiveness.

George—She sings nicely, doesn't she?

Tom—Oh yes, when she sings they have to close the windows.

Yes, she's a real singer. What for?

Tom—Her voice is so sweet it draws the flies.

The time will come, thundered a Suffragist orator, when women will get a man's wages!

Yes, said a man on the man on the rear seat—next Saturday night.

Minard's Liniment Cures Colds, Etc.

Practical Advice.

Mr. Lovelace was one of those people who on every possible occasion consulted his solicitor. Nothing pleased him more than to go to law. The lawyers regarded him as an invaluable client.

I have been grossly insulted! he exclaimed, rushing into the office of his solicitor for the seventh time in three days.

In what way, asked the solicitor, somewhat wearily.

My next-door neighbor has declared he will pull my nose next time he meets me. What shall I do about it?

Well, said the former, as if he had given the case due deliberation, I should soap it, then it will slip through his fingers. Good day! My bill will follow in due course.

Happenings in and Around Frank

W. J. McGowan returned from Vancouver on Tuesday.

Joe Tompkins has assumed the management of the Rocky Mountain Sanatorium.

A. C. Kemmis, of Pincher Creek, was in town this week, and registered at the Sanatorium.

J. F. Sterling, who had been here supervising the examinations at the Sanatorium, returned to Edmonton this week.

About twenty mine workers wrote papers at the recent sitting at the Sanatorium. The sessions closed on Saturday last.

Alex. McCulloch, of Carmanagay, who spent last week at the Rocky Mountain Sanatorium writing exam. papers, returned home the beginning of this week.

W. Harrington Rielly, vice-president and managing director of the Rocky Mountain Cement Co., was in town from Calgary during the week, and registered at the Sanatorium.

W. J. Scott, who has the contract to move the buildings of the Canadian Coal Consolidated Co. to the new town site, commenced work Monday, and already several buildings have been transformed into moving mansions.

BOHN—A seven-pound son was born to Mr. and Mrs. Howard N. Wiest, of Frank, on Friday, the 13th. Mother and son are getting along nicely. Mr. Wiest is the fuel inspector at Bellevue mine for the Oregon-Washington R. R. and Navigation Co.

C. Vinet, who for the past several months has been managing the affairs of the Rocky Mountain Sanatorium hotel, left for Calgary Tuesday night. Mr. Vinet takes charge of the Sherman hotel at Calgary, and his many friends in the Crown's Nest Pass wish him every success in his new undertaking.

The following were among those registered at the Rocky Mountain Sanatorium during the week: L. L. Poneford, A. Gatti, M. Gatti, Vancouver; S. Scranon and wife, A. W. Baker, W. Barrington Rielly, G. F. Snowden, A. G. Findlay, H. O. Berry, Fred. F. Collins, W. P. McNeill, H. L. Stephens, Thos. Loney, E. W. Burton, Calgary; R. E. MacLiffe, W. A. Moore, Winnipeg; George A. Eovill, E. D. Bennett, F. E. Woodcock, Medicine Hat; S. Shaw, Bellevue; S. A. Fraser, E. L. Connors, W. Embury, A. C. Kemmis, Pincher Creek; H. W. Taylor, Jas. Dougall, Passburg; H. C. Lancaster, Lundbreck; J. H. Sutherland and wife, Nacled; G. Kosoff, Fernie; D. de Brey, Paris, France; J. W. Naldergrove, Seattle, Wash; E. T. Fitzsimmons, Burnie; J. F. Sterling, C. H. Bellanger, T. Rookes, R. McDonald, Edmonton; L. Smith, Bloomfield, Ill.; L. Ryan, "Dear Old Killarney," J. Muffatt, Spokane; C. McLean, F. E. McGaw, S. A. Williams, Lethbridge.

If you knew of the real value of Chamberlain's Liniment for lame back, soreness of the muscles, sprains and rheumatic pains, you would never wish to be without it. For sale by all dealers.

China Borrows \$50,000,000

London, Sept. 11.—An agreement for a loan to China of \$50,000,000 at 5 per cent for 40 years was signed August 30 by the Chinese minister and a representative of Lloyd's bank. The loan is secured upon unpledged revenue, chiefly the salt duty. It is free of control and supervision, which proved an obstacle to the loan by the six nation group. The salt duty is to be controlled by the British inspector general of customs in case of default.

Wendell Jackson, an American, is said to have arranged the agreement. It is contended in some quarters that the Chinese minister was without power to sign the agreement.

Farewell to C. Vinet

On Monday evening a farewell banquet was tendered Mr. Charles Vinet, the retiring manager of the Rocky Mountain Sanatorium, on the occasion of his departure for Calgary.

Mr. Vinet, since his arrival some months ago, has made many friends in Frank and The Pass in general, as was testified by the host of boys who gathered to wish him God Speed in his new venture. It is largely owing to "Charlie" that the Rocky Mountain Sanatorium has gained the reputation of being a hostelry which is second to none in the southern country.

Mr. H. H. Fitzsimmons acted as toastmaster and it is needless to add, left nothing to be desired.

Those present included J. F. Sterling, F. Aspinall, A. Rottler, C. J. Tomkins, J. M. Windsor, P. Caruthers, S. Smith, R. W. Thompson, H. N. Wiest, L. Ryan, S. B. Rourke, J. Tompkins, J. Moffat and T. L. Ferguson.

Hillcrest Happenings

The 12th township, known as Hillcrest, is attracting quite a little attention and there is some talk of exhibiting it at the Dry Farming Congress next month.

The Raymond-Dell Company performed here last Monday evening before a large and appreciative audience. The play, "Zee, the Country Boy," is one of the best comedies so far produced in The Pass, and the Bell Company are to be complimented on their original production and scenery.

The Co-operative Society at Hillcrest have now opened a "pipes and tobacco department" and their stock of pipes is admitted to be the best in The Pass. It is now possible to buy a decent pipe right here at home and from the numerous sales already recorded in this line a new stock will soon have to be purchased.

The dance held at Hillcrest last Saturday evening was an unqualified success. The Hillcrest orchestra was again to the front and well merited the applause that greeted every item played by them. It is proposed to hold a dance every Saturday night through the winter here at Hillcrest, and if last Saturday's attendance and programme are to be taken as fair average attendance the promoters certainly will lose neither money nor prestige in their venture. As we have to depend entirely upon our own efforts of amusement during the winter we hope that the proposed weekly dances will gain the backing of all the young people in town.

There has been quite a little talk in town lately regarding the erection of an open air rink this fall. Joe Brohler, backed by three or four others in town, have gone into the matter thoroughly and are convinced that if, say twenty-five subscribers at five dollars apiece, it would be quite possible to finance the scheme. The promoters would be glad to be met by all interested, as now is the time to get the good work started. Five dollars is as cheap as anyone can purchase a season ticket at any rink, even should it be impossible to make the scheme pay during the coming winter. But with the number of spectators we have in Hillcrest and the few sports that are practicable during our four months of severe weather there is every reason for the rink more than paying for itself.

It is at present too early to say anything regarding the big smoker held on Wednesday, but from all accounts it is going to be the biggest affair of its kind yet seen in this portion of The Pass. The proprietors of the Bellevue and Southern hotels at Bellevue, the wholesale store at Frank, Frank Bosley and numerous others have already contributed their share of the evening's refreshments which is quite some little mite. The cap will be presented by Mr. Graham of the P. Burns Co. and the programme, a copy of which we were permitted to see, promises all kinds of fun. We are going ourselves principally with the hope of seeing a Guzak at close range and trust that we are not already doomed to disappointment.

As our Burnie friend waits to have a squint at our hand before calling, we are quite willing to give him our line up. Casey Jones is goalkeeper, Must and Jeff will play back, Sunny Jim Sausage and Concorina Joe pose as half backs, while on the forward line will have Ignatius Stelnazewski, Neerli Blomqvist, Kwasnikowski, Kwasnikowski (centre), Potomacus Duglathson and Wilhelm der Deutscherlander. Before, Encyclopaedia Britannica. Guess that ought to scare any set of Guzak. But ever tried to bring hot air. But see next week's issue the line up from Burnie regarding playing two from all over the Pass. "I say, that's blawed, well fair to play that blawin' Henjor."

Quorra—Did you hear that squaky that's Burnie!

Happenings in and Around Bellevue

W. J. Cole is building an addition to his pool room.

A. J. Blais, of Frank, was a business visitor to town on Monday.

James McNeill is erecting a dwelling house on Connolly's town site.

The stork visited the home of Dr. MacKenzie on Thursday and left a fine big daughter.

Edward Atkinson is in Fernie this week, attending the social given by the I.O.G.

Mr. and Mrs. Samuel Turner and family of Springhill, N. E. have arrived in town.

Work on the new Union bank building is progressing favourably under contractor Whiller.

Bob Dickens has arrived in town from Toronto and taken a position as machinist at the Bellevue mine.

Charles Harvey has dropped into town from Springhill, Nova Scotia, and started to work at the mine.

Pay-day did not come on Friday as was expected, and the mines are idle till pay-day comes, in consequence.

Miss Rogers, of the teaching staff, returned from a holiday trip east on Monday, and resumed her duties all smiles.

George Turner, of Gerrard, B.C. is visiting in Bellevue, the guest of his brother James. He intends staying a few days.

Thomas Bennett who had been away for some time at Athabasca Landing and Peace River, returned home Monday night.

Peter Guelea, who left here some time ago to work at Banhead returned on Saturday. He thinks Banhead is a thing of the past. Stay home, Pete!

S. Humble is putting up a ware house on the lot next to his hardware store. Mr. Humble's present building is altogether too small for his extensive trade.

D. J. Keith, pit-boss at the Kippicolleries, was a visitor to Bellevue on Tuesday, the guest of James Machel. He went to Frank Thursday to sit for super's papers.

Rev. W. H. Irwin went to Edmonton on Monday and returned Saturday. On Sunday he leaves on his mission to Toronto and will be absent about three or four weeks.

William Miller, father of Walter Miller, arrived in Bellevue on Wednesday of last week. Mr. Miller is from South Ashton, Yorkshire, England, and is enjoying his trip through Western Canada.

A grand ball will be given in the Socialist hall on Tuesday next, September 24th, under the auspices of the Polish citizens of Bellevue. Refreshments will be served. Dancing commences at 8 o'clock sharp. Tickets \$1.00, ladies free. Everybody welcome.

Don't forget the big concert to be held in the Socialist hall on Monday night, September 23rd. An error occurs on the tickets that have been issued, which reads Thursday the 26th instead of Monday the 23rd, so you are asked to remember the 23rd.

Rev. W. H. Irwin, while in Edmonton, will interview the minister of education concerning certain difficulties in connection with the Bellevue school district. At present we have only two small rooms, which can only accommodate 80 pupils while there are upwards of 150 children in town who would attend school were space and teaching staff available. It is proposed to erect a four-roomed school building.
